Jeremiah: The Sins of God's People
Sunday Auditorium Class
Teacher ~ David White

The destruction of Jerusalem by the Babylonians and the subsequent Babylonian captivity were the tools God used to punish and bring about repentance from his people. These events lead us to think, "What sins did God's people commit that would result in this punishment?" The first part of the book of Jeremiah catalogs the charges made by God through his prophet Jeremiah against his people. In this class we will study the sins of God's people that we might learn not to follow their example.

A Look at the Jewish life of Rabbi Jesus
Sunday Room #10 Class
Teacher ~ Willie Wilson

"Sitting at the feet of Rabbi Jesus", written by Spangler and Tverberg, examines the question of what it would be like to sit at the feet of Rabbi Jesus. The word rabbi means "my master". It was used as a title of respect for a teacher.

The class will look at the life and times of the first century Jewish world. Use of question, discussion, plausible answers and prayer will aid understanding of the culture, customs, feasts and prayers of Jews during the Jesus ministry.
